

DVR-111D (beige), **DVR-111DBK** (black) & **DVR-111DSV** (silver)

DVD-R/RW, +R/+RW, CD-R/RW Writer

Product Overview

OVERVIEW

The **DVR-111D** high speed DVD burner introduced by Pioneer enables computer users to create personal DVD movies, make digital photo slideshows, burn music CDs and back up your data files onto DVD-R, DVD-RW, +R and +RW discs with ease. It also works with dual layer discs, increasing the capacity of a disc from 4.7 to 8.5 gigabytes for even more storage space.

The DVR-111D offers many industry-leading technologies including:

- Improved Quiet Drive Technology reduces the noise level of audio and video playback (ideal for living room settings) while also delivering increased writing reliability
- Dual/Double Layer recording provides nearly twice the capacity of a single layer recordable DVD-R (8.5 Gbytes vs. 4.7 Gbytes)
- Liquid Crystal Tilt/Blur Compensator plays and records to discs more reliably – the Pioneer technology that compensates for warped discs
- Industry-Leading Drive Technology, provider of DVD-writable drives to computer manufacturers worldwide
- Compliant with Reduction of Hazardous Substances (RoHS) regulations

SPECIFICATIONS FOR THE PIONEER DVR-111D ATAPI WRITER

- Writes up to 16X on DVD-R/+R 4.7GB (single layer), up to 8X on DVD-R/+R (dual/double layer), and up to 6X on DVD-RW and up to 8X on DVD+RW media
